ALANO, ANNA MARIE GUTIERREZ

Tiaong, Quezon, Philippines | +63 948 866 3117 | annamarie.alano12@gmail.com

OBJECTIVE

Computer Engineering graduate with experience in editing and generating educational worksheets, performing data annotation, and utilizing various LLMs to support content creation and improve work efficiency. Proficient in using Microsoft applications and knowledgeable in basic JSON syntax and structure. Seeking an opportunity to apply my technical skills, attention to detail, and adaptability while gaining further experience, contributing to organizational goals, and continuously developing my knowledge in technology and AI-related fields.

EDUCATION

Bachelor of Science in Computer Engineering **2022 - 2026**

Pamantasan ng Lungsod ng San Pablo *San Pablo, Laguna*

- Major in Mathematics and Computer Literacy
- Major in Computer Programming

WORK EXPERIENCE

Mathspace **2024 - present**

Content Creator *Australia*

- Experienced in editing, creating, and refining student worksheets to ensure accuracy, clarity, consistency, and proper formatting.
- Proficient in annotation tasks that require attention to detail, adherence to guidelines, and accuracy in labeling and reviewing content.
- Proficient in using various Large Language Models (LLMs) to assist with content generation, editing, reviewing, and improving workflow efficiency.
- Proficient with Microsoft Word, Excel, and PowerPoint for document creation, data organization, presentation development, and formatting.
- Possesses a foundational understanding of JSON syntax, data structures, and formatting.

PROJECTS

IoT Smart Irrigation System **Aug 2025 - Present**

Assistant Lead Developer

- Developed an IoT irrigation system using ESP32 and soil moisture sensors that automatically waters plants based on real-time readings.
- Implemented MQTT communication to a cloud dashboard, enabling remote monitoring through a mobile app.
- Reduced water usage by 30% in test runs compared to manual watering.

SKILLS

- Educational Worksheet Editing and Generation; Data Annotation and Labeling; AI Tools and LLMs; Microsoft Word, Excel, and PowerPoint; Basic JSON Syntax and Formatting; Document Formatting and Quality Checking; Attention to Detail and Accuracy; Critical Thinking and Problem-Solving; Time Management and Organization; Adaptability and Willingness to Learn; Written Communication; Teamwork and Collaboration
